INSIDE THE PORTFOLIO OF...

# The 1990s by Marcelo Krasilcic

© Marcelo Krasilcic

Marcelo Krasilcic is part of the generation of photographers who took over New York City during the 1990s and quickly became known for their intimate, sensual images of artists, designers and musicians like Maurizio Cattelan, Chloë Sevigny and Everything but the Girl. The *Vogue* and *Vogue Hommes International* regular has now published a sizeable book that holds a carefree collection of portraits, interior photographs, nudes and shots of his family, friends and lovers. Exclusively for *Vogue.fr*, the photographer discusses a few of his candid shots.
